Subject: Alameda Point - Questions for the Navy

Jennifer,

As a follow up to your email re: questions for the Navy re: Tetra Tech, Langan proposed the questions below:

1. Has the California Department of Public Health or US Environmental Protection Agency completed confirmation scans or testing at former radiological sites where Tetra Tech EC completed investigations at Naval Air Station Alameda, specifically the portion of Storm Drain Line G and the portion of the Seaplane Ramp and Parking Apron in Site A? If not, does either agency intend to complete confirmation testing at these sites?
2. Is there any overlap in the 'suspect' Tetra Tech EC workers at Hunters Point Naval Shipyard and Tetra Tech EC workers at Naval Air Station Alameda, specifically those working on the portion of Storm Drain Line G and the portion of the Seaplane Ramp and Parking Apron in Site A?

Please let us know if you have any questions.

Thank you,
Stephanie

Stephanie Hill
